

- **The Principles & Care:** The Motley digging tool you have purchase in North America is sold with the following understanding and/or conditions: your Motley Digging Tool is sold with the intent that it is for digging/plug cutting and/or water retrieval on land or from bodies of water...in and around lakes, beaches, lawns, fields, pastures etc. They are to be used wherever the Motley Digging Tool end user has permission and/or has the legally recognized right to uncover metal detected targets.
- Neither Motley Tools nor American Detector Distributors, and their dealers/retailers, take any responsibility for improper, illegal, careless and otherwise harmful use of these products.
- By purchasing these tools, the buyer and/or user of these digging tools accepts responsibility for the proper, safe, and legal use of any Motley digging product as well as its maintenance.
- It is suggested that users be aware that these steel digging tools have sharp edges and caution and such protective techniques as wearing gloves is advised.
- Be aware these tools are made of conductive and piercing metal and you must cautiously be aware of the possibility of electrical cables as well as gas lines in your retrieval areas.
- Note also that these tools are not meant to endure being used for prying apart rocks, concrete and other such heavy/hard objects and materials.
- Motley digging tools, like any top quality tool, deserves good maintenance. Be sure to clean them by water rinsing/non-metallic brushing and perhaps applying a *light* coating of acid free mineral oil such as machine oil, linseed oil, silicon spray, vegetable oil, vaseline, 3-in-one etc.
- **The Warranty:** covers the original purchaser, with a dated receipt, from any defect in material and workmanship for a period of one year. Any improper use of your digging tools will void your warranty. Please contact your dealer or check the “contact” section of: www.motleydiggingtools.com ...for further warranty processing information.
- Also, please be aware that Motley Digging Tools are colored by a cosmetic powder coating process and will scratch and color fade with normal use. Therefore, this sort of wear is not covered by the warranty.
